### 8. Other important facts concerning the offer and the issuer

On 12 December 2006, the Shareholders' Meeting of the Issuer adopted the resolution and authorized the Management Board, with the consensus of the Supervisory Board, within five years following the entry of amendments to the Articles of Association adopted at the 10th Shareholders' Meeting into the court register, to increase the share capital by up to 15 per cent of the share capital entered on the date of adoption of this resolution. On the basis of the above said, the share capital may be increased from the present EUR 50,909,697.88 (SIT 12,200,000,000.00) by a maximum of EUR 7,636,454.68 (SIT 1,830,000,000.00), so that, following the increase, the share capital shall amount to a maximum of EUR 58,546,152.56 (SIT 14,030,000,000.00). The share capital shall be increased by issuing a maximum of 1,830,000 new ordinary, freely transferable, registered shares with no par value.

With the issue of new shares from authorized capital, the company will be able to implement the strategic plan of Gorenje Group, which in the period from 2006 to 2010 envisages a growth in business activities of at least 50% to be generated with internal – organic, or external growth (acquisition), and this should be followed by adequate growth in shareholders' equity. The resolution for the issue of new shares adopted by the Shareholders' meeting enables the Management Board – with the consensus of the Supervisory Board – to respond to financing requirements in conjunction with strategic decisions of the company.

Existing shareholders have a priority right to subscribe to new shares, therefore shareholders entered in the share register on 29 June 2007 have a priority right to subscribe to new shares in proportion to their shares held in the share capital. They have a priority right to subscribe to 15% of the shares they own, in which case the rule applies that the number of new shares to which existing shareholders are entitled is rounded up. The proportion is therefore 0.15 of share for one share, and the rule applies that each shareholder is entitled to subscribe to at least one new share.

All those entitled to subscribe to and pay for new shares will be informed by the Management Board of the company in writing about their right.

The existing shareholders will be informed by a written notice about the number of shares which they can subscribe to and purchase on the basis of their priority right and on the basis of the current number of shares they hold.

The prospectus provides an overview of the Issuer's legal and financial position, as well as of business opportunities and rights arising from the shares.

The investor's decision to purchase the security should be based on the inspection of the entire prospectus.

The Issuer obtained a decision from the Securities Market Agency confirming the prospectus (ref. no.: 11/356/AG-07-(172) dated 23 May 2007).
